Instructor: Prof. Martial Luyts, Dr. Gregory van Kruijsdijk, Dr. Ruben Kerkhofs

0.1 Introduction

Introduce datasets, and summarize what we focussed on. One page max.

0.2 Implementation

Briefly outline the structure of our codebase and main components. This should be 2 pages at most

0.3 Results

Here we present our main findings, i.e. the main plots we will show on our dashboard and the conclusions we can draw from this. Focus on networks and predictive analysis.
